

Super O _Ceiling – suspended floor lamp 3 lights

Cordless, rechargeable, battery pendant floor lamp with three LED modules. The LED module is attached to the lamp frame with a magnet. It can rotate 360°, allowing you to aim the light flow. A touch control on the top of the module allows you to switch the light on, adjust its intensity (with 4-step dimming) and select its color temperature. And thanks to its high IP rating, the lamps in the collection can also be used outdoors. An electronic control system monitors the remaining battery power and guarantees a constant luminous flux until the battery runs out, ensuring that recharging is optimized and always performed correctly. The module can be removed and recharged easily by connecting it to the contact charging disc. Battery charger not included.
